## General information

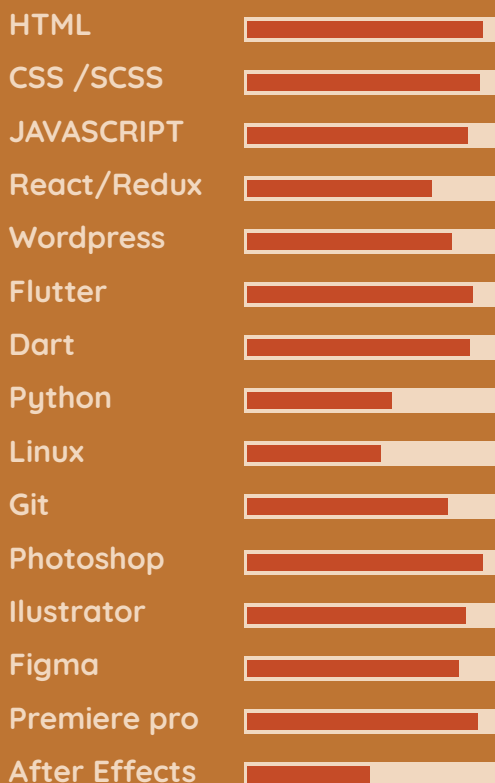

### Personal

Nationality : Chilean/German  
Date of Birth : 2/10/93

### Languages

Spanish : Native  
German : Native  
English : Full professional proficiency

### Skills

Self-taught web and mobile front end developer. Passionate about technology and coding as reality changing entities. Learning constantly to improve my skills to get a wider vision, to build and collaborate in more complex, efficient, fun and interesting environments

I'm interested in the challenges that come with the comforts offered by the digital world like: UX design, UI, privacy, security, freedom, data manipulation, network and server administration, machine learning and in general how to use technology in a way that serves the people more than the technology itself.

## Experience

### 2021

#### Datos Protegidos

- UX and web designer, web developer.
- Designed and built the website "https://testigoenlinea.cl".
- Website to gather and store human rights violation testimonies to help future investigations and legal processes.
- Built on a custom made Wordpress theme, using "Maadix" for hosting and collaborating with "Deflect" to enhance security and prevent attacks.
- All the testimonies are saved using pgp encryption.

#### Acción Constitucional

- UX and web designer, web developer.
- Maadix server configuration (Nextcloud, Onlyoffice, Jitsi).
- Organisation to legally support human rights defenders in Chile.

### Apr 2019 - 2021

#### Verticalsoft

- Front end developer and UX designer.
- Trained new members of the company.
- Involved in over 7 different projects with multiple clients doing web apps and mobile apps.
- Used languages, tools and libraries like: Flutter, React, Redux, JS, JSON, Jquery, HTML5, CSS3, SCSS, REST API, Liferay Dxp, Gitlab, Gulp, npm, Postman, ssh, scp, ftp, figma

### 2020

#### Wolf

- UX designer and mobile developer using Flutter.
- Worked in english.
- Staff management software, imitating web app functionalities on mobile using REST API and tools like pusher and sentry.
- Develop and publish for IOS and Android.

### 2019

#### Front End Chile

- Teacher for "Responsive Web Design" and "Introduction to JS".
- Developed and taught both courses using revealjs "https://responsive.testdesign.website/", "https://js.testdesign.website/".

### 2018
